

2020
600 YARD HIGH POWER RIFLE WIND READING CLINIC
JULY 12th 9:00am

The High Power rifle season will soon be in full swing. I have been asked several times about putting on another wind reading clinic, so I'm planning a clinic on July 12th. The start time will be 9:00 am at the club house. Please arrive about a half an hour early to get signed in. I am going to request that you preregister so I know how many handouts and assistants to have available.

Firstly, we will spend about an hour discussing prone shooting. Topics to include: Shooting disciplines, Positions, Equipment, Ammo, Reloading, Wind Reading, and Shooting Strategies. Wind reading and shooting strategies will dominate the discussion. Learning to cope with the wind, which is half science and half art, is the key to successful mid-range and long range shooting. Make the wind your friend.

I am also hoping to have help from a couple of F/TR High Master shooters to discuss and demonstrate F/Class shooting techniques. This should be great **high level** information for all of the F/Class shooters. We will then put some of these ideas to the test on the firing line.

To attend, you will need the following: A 600 yard "zero" for your rifle (elevation and **no wind "0"**) and about 50 rounds of ammo - target quality if possible (69 grain or heavier bullet for .223/5.56), Spotting scope if you have one (I will have a few extras available), Bring shooting gear you feel comfortable with (bi-pod, rear bag, shooting mat, etc.) eye and ear protection and most importantly lunch. I have a couple of loaner rifles for those without equipment. I can also provide match grade ammo (.308) for \$10.00 per box of 20 rounds.

I will be available for you to get a 600 yard "zero" on Saturdays from 10:00 am till Noon. Try to attend one of our practices on Thursdays at 9:00am till noon or 4:00 pm till finished. The fee for the clinic this year is \$30.00. The cost of printing (the handout booklet is now almost 100 pages) and range supplies is up again. I just need to cover cost.

**** Let me know in advance if you need a rifle and ammo. ****

With cooperation from the weather, I think we can have a very productive day. If you want to attend or have any questions, contact me at:
