

# **New Shooter 600 yard Mid-Range Prone Rifle Clinic**

**April 25th 2021 9:00 AM**

**CCSSEF.ORG 600 Yard Ferry Brook Range**

I will be holding a prone shooting clinic at the 600 yard range on April 25th in Keene. New shooters are the focus of this event, but it is open to experienced shooters wanting to help and brush up on the basics. Eye and ear protection is required on the firing line.

We will meet at the club house at 9:00 am to sign up and collect a modest fee for those taking the clinic to cover range costs. Basic equipment requirements, SAFETY, range procedures, and basic shooting techniques will be discussed before we move to the firing line. Shot Marker electronic targets will be used. Please bring a smart phone or tablet with Google Chrome to connect to the system. If you don't have one don't worry we will share.

On the firing line, we will demonstrate what we discussed including shooting positions and SAFETY. We will then divide into two person teams. One person will shoot and the other will score and coach, then switch places. Please bring about 60 rounds of ammo. We should have enough time to shoot several relays each. I like to have all participants meet back in the club house for a few minutes after the event for questions and feedback about the clinic.

I have two loaner rifles for those without equipment and will supply ammo for \$15.00 per box of 20 rounds. For those who want to use their own rifle, Ron Avery and I will be available on Saturdays starting in mid April at 10:00 am at the 200 yard line (weather permitting) to get you sighted in for the 600 yard line. If you are shooting 5.56mm/.223 rem. the minimum bullet weight is 69 grains. (55 and 62 grain bullets are not allowed for the 600 yard range.)

We may have time (**no guarantee**) to get your rifle sighted in on the day of the clinic, however I would urge you to get that done beforehand.

Contact me with any questions and to reserve a spot.

**BRING A LUNCH AND DRINKS**
