

2023
600 YARD HIGH POWER RIFLE WIND READING CLINIC
July 30th 9:00am

The High Power rifle season is in full swing. I have been asked several times about putting on another wind reading clinic, so I'm planning a clinic on July 30th. The start time will be 9:00 am at the club house. Please arrive about a half an hour early to get signed in. I am going to request that you preregister so I know how many handouts and assistants to have available. Shot Marker electronic targets will be employed. Bring a smart phone or a tablet (Chrome recommended) to access the system. Class Limit: 20 participants.

Firstly, we will spend about an hour or so discussing prone shooting. Topics to include: Shooting disciplines, Positions, Equipment, Ammo, Reloading, Wind Reading, and Shooting Strategies. Wind reading and shooting strategies will dominate the discussion. Learning to cope with the wind, which is half science and half art, is the key to successful mid-range and long range shooting. Make the wind your friend. We will then put some of these ideas to the test on the firing line.

To attend, you will need the following: A 600 yard "zero" for your rifle (elevation and your **no wind "0"**) and about 50 rounds of ammo or more - target quality if possible, plan to do quite a bit of shooting (69 grain or heavier bullet for .223/5.56), Spotting scope if you have one (I will have a few extras available), Bring shooting gear you feel comfortable with (bi-pod, rear bag, shooting mat, etc.) eye and ear protection are required and most importantly lunch.

Loaner rifles and ammo for those without equipment may be available.

****Contact me in advance to make arrangements****

Ron Avery and I will be available for you to get a 600 yard "zero" on Saturdays from 10:00 am till Noon. Try to attend one of our practices on Thursdays at 9:00 am till noon or 4:00 pm till finished. We use the E-Targets for practice, so bring a tablet or smart phone.

The fee for the clinic this year is \$40.00. The cost of printing (the handout booklet is now almost 100 pages) and range supplies are up again. I just need to cover cost.

**** Let me know in advance if you need a rifle and ammo. ****

With cooperation from the weather, I think we can have a very productive day. If you want to attend or have any questions, contact me at:
