Re:

Board of Directors 2026

I would like to submit my name for consideration as a Board Director for the 2026 calendar year elections to be held on October 28.

I have been a member of Cheshire County since 1995.

I was a board director from the early 2000's until 2008, when I resigned due to work demands.

I am at a stage in life where I feel I have the time to focus on the board role once again.

My priorities as a board member would be a focus on the preservation of the organizational entity for future generations, development and support of a wide variety of shooting activities across all disciplines, and a focus on youth development programs.

Thank you for your consideration.
